Only from Nemco!

**Easy Flowering Onion™ Cutter**

Take all the labor out of this high-dollar customer favorite for a profit of 700% or more!
a ‘Colossal’ Moneymaking Opportunity

Cash in big time on the immensely popular flowering-onion appetizer with this easy-to-use manual tool that reduces all the painstaking labor down to one pull of a handle.

Super-Fast ROI
When you can make ‘em as fast as they eat ‘em, just imagine. . .

This machine pays for itself after only one 50 lb. bag of colossal onions!

- Load a peeled onion and pull the lever. It’s that simple and fast. All the labor comes out of the process, but not the presentation—or the price.
- The ergonomic handle and lever action take all the strain off the user, further maximizing productivity.
- Easily disassembles for cleaning too!

Relentless Performance
For a menu item this popular, you can’t afford a breakdown.

- All cast-aluminum and stainless-steel construction for durability.
- High-strength bearings stand up to nonstop, heavy-duty activity.
- Wide base and suction-cup feet provide reliable balance and stability—yet, it remains extremely portable.
- Compact design makes it easy to fit on the countertop or store away.

Suggested Uses
Create the perfect signature-item appetizer using colossal or regular-sized onions. Or dip the ends of a flowered raw onion in food coloring to produce a magnificent onion garnish.

Core Cutter
The Easy Flowering Onion Cutter’s sidekick
The Core Cutter easily removes the onion core, creating a space to add a ramekin filled with delicious dipping sauce. Unit comes with two different core cutter sizes—2¾” and 1¾”—and an adapter that works for smaller onions.

Replacement parts are available through Nemco’s 24-hour Zip Program.

Nemco reserves the right to make design, specification or model changes without notice.
